Press Release: **Compumod appointed Australian Reseller for ZWCAD**

Compumod is pleased to announce that it has recently expanded its ZWSOFT product range and has now been appointed Australian Reseller for ZWCAD along with ZW3D CAD/CAM software.

ZWCAD™ is a cost-effective, DWG file format compatible CAD solution for the AEC and MCAD industries.

ZWCAD provides unparalleled compatibility with AutoCAD, using most of the same file formats including those for drawings (.dwg files), commands, linetypes, hatch patterns, and text styles. You can also use AutoCAD menu files and run Autodesk® AutoLISP® programs. This means users begin working with ZWCAD immediately with little to no training.

ZWCAD is designed for anyone who wants a fast and efficient CAD program with all the power and versatility of standard programs such as AutoCAD® by Autodesk®, Inc., or MicroStation® by Bentley Systems, Inc., at an affordable price. Using today's advanced technology, ZWCAD integrates the Microsoft® Windows® interface with a powerful CAD engine.

ZWCAD is more compatible with the AutoCAD program than any other CAD product, delivers additional tools with advanced CAD features, and has a seamless Microsoft® Windows integration. This powerful program provides a superb combination of features for CAD users like architects, engineers, and designers.

ZWCAD incorporates standard features found in other CAD programs, along with features and capabilities you won't find anywhere else. ZWCAD is popular in over 80 countries with more than 180,000 users, and available in 15 different languages.

"We are extremely excited about our agreement with ZWSOFT as it means Compumod is now able to service a much wider range of clients with our premium software offerings," said Warwick Marx – Managing Director of Compumod. "As ZWCAD is fully featured out of the box and affordably priced, we believe ZWCAD will take the market by storm and are excited to be chosen as a pivotal part of their growth plans."

ZWCAD is released by ZWSOFT. ZWSOFT (ZWCAD Software Co., Ltd.) is a world renowned CAD/CAM solutions provider, with over 180,000 clients across 80+ countries.
