

The pathway to a cleaner,
greener future...

Sustainable
Manufacturing
Seminar 2013

AutoCRC, in collaboration with **Society of Automotive Engineers Australasia** and **Kangan Institute**, offer you the opportunity to engage with some key thinkers to discuss *Australia's manufacturing future*. How will Australia strengthen and grow its manufacturing impact on the local and international stage? What are fundamental enablers and "governing values" for the Australian manufacturing industry to gain technological traction, market share and economic resilience in the face of the strong Aussie dollar, high labour cost and international supply chain entry "hurdles"? We have chosen our line-up of speakers because of their variety of experience in the Australian and global manufacturing environment and their enthusiasm to share their insights and expertise. You will take away solid, practical information that can be applied to your business, work and research with tangible results.

Date: 08 August 2013
Time: 08.30 – 14.30
Venue: **ACE, Kangan Institute**
Address: Level 2, Room W17,
1 Batmans Hill Drive, Docklands
Register: Register by clicking [here](#)
Cost: AutoCRC/SAE-A *Members: \$25
Ex- Booking fee Non-members: \$35 Students: \$15
Contact: patricia.chronis@autocrc.com +61 3 9948 0450
rose@sae-a.com.au
